

Day 3

Amolith

Well I had planned to write a post about music this evening but I just spend two hours making the post's cover image, a guitar. Lately, I've been *basing* my images on [Feather Icons](#) or [Font Awesome](#). I might download one to use as a reference, download and modify, etc. but I've stopped using the icons as they are. This guitar, however, is an exception; I used the [Bezier Pen](#) and created it completely from scratch. It's still just a silhouette but I've always avoided this tool because it's so hard to use. You can view it on [my Gitea instance](#).

Anyway, this is my anti-climactic third day out of 100! Prepare for some music tomorrow :wink:

This was posted as part of [#100DaysToOffload](#), an [awesome idea](#) from [Kev Quirk](#). If you want to participate, just write something every day for 100 days and post a link on social media with the hashtag!
